

"TREAT!" SAVES LIVES!

A SUPER-EASY INSTANT RECOVERY TECHNIQUE
THAT MOST PEOPLE CAN LEARN IN 5 MINUTES
AND MOST DOGS CAN LEARN EVEN FASTER!

STEP 1:
TEACH YOUR DOG THE WORD "TREAT"
BY SAYING IT EVERY TIME YOU GIVE
HIM OR HER A TREAT. JUST GIVE
THE DOG A SNACK, AND SAY
"TREAT!"

STEP 2:
NOW THAT S/HE KNOWS THE WORD, PUT
THE SNACK IN YOUR FIST AND SLOWLY
BACK AWAY. YOU WANT THE DOG TO
TRACK YOUR FIST. WHEN S/HE DOES, GIVE
HER THE TREAT. KEEP SAYING "TREAT!"

STEP 3:
AFTER THE DOG HAS LEARNED TO FOLLOW
YOUR TREAT-FILLED FIST, MOVE IT UP TO
YOUR CHEST. NOW THE DOG IS TRACKING
YOUR WHOLE BODY & YOUR SMILING FACE!

**STEP 4: PRACTICE...A LOT &
EVERYWHERE! YOUR DOG WILL LOVE
COMING TO YOU IN A FLASH, EVEN
IF YOU DROP THE LEASH OR HER
EQUIPMENT FAILS. NOW SHE'LL
COME ZOOMING BACK TO YOU!**

YOU'LL BE ABLE TO BACK HER TO A SAFER AREA AND SHE WON'T PANIC OR RUN AWAY. BECAUSE THE TREAT IS UP AT YOUR CHEST, SHE WON'T BE ABLE TO SMELL WHETHER YOU REALLY HAVE A TREAT IN A REAL EMERGENCY. THAT "TREAT!" CAN SAVE HIS OR HER LIFE!
